*Hi I'm Shoshana Finn
founder of Back To Eden
Healthy Living Directory,
Blog & Eco Shop.*

The creation of Back To Eden has been an amazing journey for me. It has allowed my love of Nature, the Arts and Truth to all come together. My goal is to inspire and enable others to explore the magnificent gifts that Mother Nature has given us.

Since ancient times people worldwide from all cultures and tribes have been using plants, flowers and Herbs to support Hygiene, Beauty, and Health. Yet, many of us in our western culture have lost that inherent connection with our natural environment since the emergence of western medicine and big pharmaceutical corporations have dominated the public mindset.

Fortunately Natural Medicine has begun to make its comeback in the Western world. People are once again curious about traditional remedies: what their ancestors used once upon a time and what other cultures are using. With this new mindset, people are exploring Herbs and Teas for healing and searching for non-toxic alternatives to the harsh chemicals we have been trained to ingest.

We are all self Healers!

I've designed each product in my Healing Herbs Collection to include easy to read labels that share the wellness benefits of each herb in order to encourage others to learn to heal themselves and use healing herbs more often to treat their ailments naturally.

On the side I offer my creative design skills to artisans, holistic practitioners, non profit organizations & small businesses with meaningful products & Messages.

Much Love, Shoshana

BUVEZ N'IMPORTE QUEL THÉ SUR LE POUCE.

TEA FILTER STRAW

A Bombilla is a filtered straw used for drinking loose leaf tea. Rather than keep your tea confined in a teabag or filter, add the leaves directly to the cup with the Bombilla & add hot water. This method of steeping provides great flavour & so fun to sip too!

We believe that anyone serious about their herbal tea should consider acquiring a Bombilla. This ancient device is a healthful, convenient, and effective method devised for sipping herbal tea preparations. When herbs are left to float unrestricted in hot water they release more of the important nutrients and antioxidants.

PAILLE FILTRE À THÉ

Une bombilla est une paille avec filtre, utilisée pour boire le thé fait à partir de feuilles. Plutôt que de garder votre thé en filtre ou dans une poche, ajoutez les feuilles directement dans votre tasse, ajoutez l'eau chaude et utilisez la bombilla. Cette méthode d'infusion procure de bonnes saveurs et rend la dégustation amusante!

Toute personne sérieuse à propos du thé devrait penser à se procurer une bombilla. Cet outil ancien est pratique, bon pour la santé et est une méthode efficace pour boire les préparations de thé. Lorsque les feuilles flottent sans restrictions dans l'eau chaude, elles relâchent plus de nutriments et d'antioxydants.
